Promotional Language

767 online mental health screenings were taken through the Aspen Strong screening initiative during the first half of 2017. These 767 screenings make up nearly 30% of total screenings taken through the initiative since the original Aspen Strong Foundation screening site first launched.

During June 2017, **138 online mental health screenings** were taken. This means that 18% of online screenings so far in 2017 took place during the month of June. Of the 138 screenings taken this month, 67 indicated that the individual taking the screening showed symptoms of the disorder. Thus, 49% of screenings taken indicated positive symptoms.

Of the 67 people who scored positive for a mental health disorder, only 23 answered the optional question "Do you plan to seek help?" Of those 23 who responded, 17 reported that they did indeed intend to seek help.
