Promotional Language

In November, **183 online mental health screenings were taken** over the course of this month. **Nearly 50%** of these screenings were associated with the occurrence of community events.

There have been **25 reported community mental health awareness events** hosted by Aspen Strong partners in the Roaring Fork Valley so far in 2017. Community events have accounted for anywhere between 22% of screenings (July) and 79% of screenings (April) for the given month. This pattern emphasizes the significance of in-person awareness programs in supporting and sharing the online screening initiative.

*Of the **100** people who scored positive for a mental health disorder, **19** answered the optional question "Do you plan to seek help?" Of those 19 who responded, **13** reported that they did indeed intend to seek help.*
